

SADHU VASWANI MISSION'S MEDICAL COMPLEX

HEART INSTITUTE

JUNE 2007

June 4, 2007 brought with it the 1st Anniversary of Heart Institute. The early morning of June 4, began with the kindling of the sacred havan *agni*, vachan from the Nuri Granth, Sadhu Vaswani's recorded *upadesh* and Rev. Dada J.P. Vaswani's message for us. All this naturally took us down memory lane with every performance treasured in our hearts.

The devotion and dedication of the entire staff of Heart Institute clubbed with the ever ready support of our benevolent donors have made the high tech cardiac facilities "*within reach*" of the lower income groups by offering such treatment at affordable prices, without any compromise on the quality of services. The sympathy and the concern of our donors have been the mainstay and pillar of this *Temple of healing hearts* ensuring that every diseased heart was healed and regained its beat. As a result over 95% of the cardiac surgeries performed within this year have been **Concessional / Free**.

HAPPY HEART WEEK – JUNE 4 – 10, 2007
